SECTION A

INDEX TO VOLUME 24

Authors

Arnell, J. C.—Permeability studies. I. Surface area measurements using a modified Kozeny equation, 103.

Baird, K. M.—High speed camera, 41.

Demers, P.—Etudes sur les neutrons lents, 117.

Douglas, D. G. and MacKay, C. A.—The surface tension of slightly soluble fatty acids, 8.

Ferguson, A. J.—Termination effects in feedback amplifier chains, 56.

Howlett, L. E.
A new criterion for measuring the speed of aerial photographic emulsions, 1.
Photographic resolving power, 15.

MacKay, C. A.—See Douglas, D. G.

Morrow, N. M.—Secondary radiation from X-ray filters. II. The design of efficient multi-metal filters, 46.

Niven, C. D.—The organic thermistor bolometer, 93.

Oliver, W. F.—Physical properties of some mineral and organic soils of the province of Quebec, 79.

SECTION A

INDEX TO VOLUME 24

Subjects

Acids, Fatty, Slightly soluble, Surface tension of, 8.

Aerial photographic emulsions, Speed of, A new criterion for measuring, 1.

Amplifier chains, Feedback, Termination effects in, 56.

Area, Surface, of fine particles, Measurement of, using a modified Kozeny equation, 103.

Bolometer, Organic thermistor, 93.

Camera, High speed, 41.

***n*-Capric acid,** and aqueous solutions of, Surface tension of, 8.

Chains, Feedback amplifier, Termination effects in, 56.

Emulsions, Aerial photographic, Speed of, A new criterion for measuring, 1.

Fatty acids, Slightly soluble, Surface tension of, 8.

Feedback amplifier chains, Termination effects in, 56.

Filters, See Secondary radiation from X-ray filters.

Heat radiation
The organic thermistor bolometer, 93.

***n*-Heptylic acid,** and aqueous solutions of, Surface tension of, 8.

High speed camera, 41.

Kozeny equation, Modified, Use of, in measurement of surface area of fine particles, 103.

***n*-Lauric acid,** Surface tension of, 8.

Mineral soils and organic soils of the Province of Quebec, Physical properties of, 79.

Multimetal filters, See Secondary radiation from X-ray filters.

Neutrons, Slow, Study of, 117.

Organic soils and mineral soils of the Province of Quebec, Physical properties of, 79.

Organic thermistor bolometer, 93.

***n*-Pelargonic acid,** and aqueous solutions of, Surface tension of, 8.

Permeability studies. I. Surface area measurements using a modified Kozeny equation, 103.

Photographic emulsions, Aerial, Speed of, A new criterion for measuring, 1.

Photographic resolving power, 15.

Photography
A new criterion for measuring the speed of aerial photographic emulsions, 1.
High speed camera, 41.
Photographic resolving power, 15.

Quebec, Physical properties of some mineral and organic soils of the Province of, 79.

Radiation, See Secondary radiation from X-ray filters.

Radiation, Heat, The organic thermistor bolometer, 93.

Radio, Termination effects in feedback amplifier chains, 56.

Resolving power, Photographic, 15.

Secondary radiation from X-ray filters. II. The design of efficient multimetal filters, 46.

Slow neutrons, Study of, 117.

Soils, Mineral and organic, of the Province of Quebec, Physical properties of, 79.

Speed of aerial photographic emulsions, A new criterion for measuring, 1.

Surface area of fine particles, Measurement of, using a modified Kozeny equation, 103.

Surface tension of slightly soluble fatty acids, 8.

Termination effects in feedback amplifier chains, 56.

Thermistor bolometer, Organic, 93.

Undecylic acid, Surface tension of aqueous solutions of, 8.

X-ray filters, Secondary radiation from, Design of efficient multimetal filters, 46.
